

AUTOSOURCE TOTAL LOSS MANAGER OVERVIEW

Total Loss Claims Workflow Management Suite

Engages Drivers

Driver Experience makes the total loss claims process understandable and transparent leading to increased consumer satisfaction and enabling higher customer retention rates.

Empowers Claims Reps

The Claims portal's Settlement Tools provide the claim rep with the ability to monitor claim status & calculate and store actionable settlement offers while engaging with vehicle owners through web and mobile channels. This helps drive consumer/insurer alignment, reduces cycle time and increases first-call settlement rates.

Management Efficiency

The KPI Dashboards and file tracking workflows provide oversight into department, team and branch performance raising quality of work and controlling expenses.

Settlement-driven, Claims Management Solution

Decrease Cycle Time

Best-in-Class Portfolio

Autosource is an independent valuation service that is powered by the industry's largest, most comprehensive vehicle database. Each week, more than three million new and updated vehicle records are added to the system to ensure comprehensive and accurate total loss values. Vehicle data is gathered daily from sources including dealerships, automotive guides, websites, industry publications and classified advertisements. In addition, Autosource professionals research the market through physical inspection and telephone contact to keep apprised of local trends.

Streamlining the Total Claim Process

Autosource's focus and expertise in the total loss marketplace helps insurers improve productivity and reduce cycle time by addressing all aspects of the total loss claims process, including; workflow management, settlement calculation and extension, reporting capabilities and team management. Our consultative approach to your business helps to increase your CSI and control your loss adjustment expenses.
